This year's report comes to you in a new format. First, the report is compiled in a way that reduces the size of the report, making it less expensive to reproduce and making electronic transmission possible. Second, the data are presented in tables that encourage comparisons over time, between programs, and between new and continuing students.

We believe this report will be useful as you consider your program's strengths, plan recruitment efforts, and manage enrollments.

I want to acknowledge the people responsible for compiling the data for this report. Sharon Gunter, Coordinator of Graduate Admissions, and Lisa Bearer, Graduate Assistant, obtained the data and produced all the tables for this report. Dr. Wilbur Stanton gave welcome advice. Of course, without the contributions you, as graduate faculty, make to Radford University's graduate education, there would be nothing to report. Thank you for your time and dedication to your programs and to your students.
